PONTIAC.

A thriving little city of about 5,000 inhabitants, is the judicial seat of Oakland county. It occupies an eligible site a little east of the center of the county, and is reached by the D., G. H. & M. and Michigan Air Line railways. The Toledo, Ann Arbor & Northern, which is now being constructed, will afford an additional outlet to the south and west during the coming summer (1881). Via the former, Pontiac is 26 miles northwest of Detroit, 21 southeast of Holly and 38 from Flint, and by the Air Line and Grand Trunk it is 57 miles southwest of Port Huron.

The settlement was formed in 1818 by the Pontiac Land Company, who purchased a tract from the government at $2 per acre, 1,280 acres of which now form the most valuable portion of Pontiac. In 1819 a road was established between this place and Detroit, and in 1820 it became the county seat.

The first newspaper published in the State, outside of Detroit, was the *Oakland Chronicle*, originated here in 1827, with Thomas B. Simpson as editor and proprietor, and was subsequently merged into the Detroit *Free Press*. At present Pontiac has three weekly newspapers, the *Bill Poster*, *Enterprise* and *Gazette*.

Pontiac is one of the best wool markets in the State, and also handles an immense quantity of farm produce. The surrounding country is famous for beautiful lakes, Orchard Lake being notable as a summer resort, and as the location of the Michigan Military Academy, an institution of no little importance.

In the western part of the city stands the magnificent building known as the Eastern Asylum for the Insane. This edifice, costing about $500,000, was completed and occupied by some 300 patients, in August, 1878.

Prominent among the other features of the city are 8 churches, Baptist, Catholic, Congregational, Episcopal, Methodist Episcopal, Methodist Protestant, Presbyterian and Colored Methodist. One of the most imposing school buildings in the

PORT AUSTIN.

The former county seat of Huron county, is located in the extreme northern part of the county, at the mouth of Saginaw bay, 17 miles due north of Bad Axe, the present county seat, with which it connects by a daily mail stage. It is 60 miles northeast of Bay City, 95 northwest of Port Huron, and 160 north of Detroit. Sand Beach, the present terminus of the P. H. & N. W. Ry, is 24 miles southeast. This line of road is expected to reach Port Austin during this year (1881). The locality was settled in 1838, and the village now has about 800 inhabitants. It is in a region of country that is improving rapidly and that contains some of the finest farms in the eastern portion of the State. One of these is the extensive breeding farm of Mr. James Ryan, proprietor of the Port Austin Hotel. He has a good half-mile track, on which is exercised some of the finest stock in Michigan, owned by him. The place contains 2 churches, a Union school, a weekly newspaper, the *Huron County News*, and 2 hotels. Daily communication is had with Detroit and intermediate points by steamers during the season of navigation. Grain, hay and salt are the chief exports. Express, McClure's, by water. Telegraph, Western Union. Thomas Winsor, postmaster.

PORT HURON.

The county seat of St. Clair county, is situated at the foot of lake Huron and the head of St. Clair river, and is the most easterly point in Michigan. According to the census of 1880 its population is 8,992. Black river, rising in the northern part of Sanilac county, divides the city into two sections of nearly equal population and business. In its early days the principal business of Port Huron was lumbering, but nearly all the pine timber along Black river and its branches has been cut, and

the few mills still running obtain their supply of logs from points on Lake Huron above Saginaw Bay. At the present time the principal business interests of Port Huron pertain to railroads and the lake marine. The Sarnia branch of the Great Western of Canada terminates at Sarnia, opposite the central part of the city, and the Grand Trunk has its depot and shops in the northern section. The Chicago & Grand Trunk has its depot and car shops in the southern part of the city, and the Port Huron & Northwestern (narrow gauge) will locate its permanent depot immediately north of the C. & G. T. grounds. Eventually it is expected that all the roads will have a union depot at this point. The P. H. & N. W., owned and managed entirely by citizens of Port Huron, has a line in operation to Sand Beach, Huron Co., 70 miles north, and to Marlette, Sanilac Co., 38 miles northwest. The Marlette branch will be extended to the Saginaw valley during the year 1881. A considerable number of tugs, and many sailing vessels and barges are owned in Port Huron, and the Northern Transit company has its headquarters in the city. There are also two dry docks within the city limits, and much vessel repairing is done in them and the ship yards adjoining. Regular lines of ferries afford communication with Sarnia, a Canadian town of 4,000 inhabitants, immediately opposite, and with Point Edward, the Canadian terminus of the Grand Trunk railway, a mile above Sarnia. Port Huron has a telephone exchange, with a hundred subscribers; a handsome opera house; the finest postoffice and custom-house building in Michigan; 2 telegraph offices, American Union and Western Union; half a dozen good hotels; water works with over a thousand water takers; 2 miles of paved streets; gas works; 9 church buildings; 5 brick school buildings; a handsome city hall and court house; 4 newspapers, the *Times* (Republican), published daily for 9 years and weekly since 1869, the *Journal* (Greenback), published daily since March, 1880, and weekly since 1875, the *Commercial* (Democratic), published Sundays, the oldest paper in the city, and the *Call*, published weekly since 1878. Port Huron has a considerable wholesale trade, which is rapidly increasing through the extension of its railroad communications; and manufacturing establishments of considerable importance. The construction and operation of extensive car works is contemplated, and a rapid increase of manufacturing interests is anticipated. The headquarters of the customs district of Huron, extending from lake St. Clair to Cheboygan, and including the Saginaw valley, are at Port Huron, and the business done is very large. More emigrants enter the United States here than at any other port in the country, excepting New York, the number reaching 90,000 for the year ending July 1, 1880. Express, American and Canadian. Wm. Hartsuff, postmaster.

PORTLAND.

An incorporated village of 1,800 inhabitants on the D., L. & N. R. R., at the confluence of the Grand and Looking Glass rivers, in Portland township, Ionia county, 14 miles southeast of Ionia court house, 23 northwest of Lansing, and 108 from Detroit. It was settled in 1834 and received a village charter in 1869. Portland is free from debt, has 6 churches of as many denominations, 3 good public schools, 2 private banks, 2 hotels, a weekly newspaper, the *Observer* (independent), and a number of good stores. It has excellent water power, utilized by 2 flouring mills and a woolen factory. Disastrous fires occurred here in November, 1879, and February, 1880, by which a large portion of the buildings on the principal street were destroyed. These have been replaced by substantial brick structures. The surrounding country consists of fine farming land well adapted to the culture of wheat. Shipments, flour, grain and wool. Mail, daily. Express, American. Telegraph, D., L. & N. R. R. Co's and Atlantic & Pacific. Wm. Root, postmaster.

READING.

A prosperous village of 900 inhabitants, on the Ft. W. & J. R. R., in the township of Reading, Hillsdale county, 10 miles southwest of Hillsdale, the county seat. Reading was settled in 1840, and incorporated as a village in 1872. Its site is claimed to be one of the highest tracts of land to be found in the lower peninsula of Michigan. Streams have their source in the township, which diverge to the east and west, and finally empty their waters into lakes Erie and Michigan. The town, which is assessed at a valuation of $400,000, has a school debt of $2,000, which is payable in February, 1882. It is well supported by a thrifty agricultural region of country, and is one of the most prominent shipping points on this line of road in the State. The churches are Baptist, Free Will Baptist, Methodist and Presbyterian, and the place has a graded school, flourishing lodges of Masons and Odd Fellows, and a number of manufacturing enterprises. A buffalo robe tannery here will turn out 10,000 robes in 1881. Express, American. Telegraph, Western Union. Stage to Camden, 6 miles south, daily. Henry F. Doty, postmaster.

REAGINGO.

A prosperous village of 600 inhabitants, on the T. W. & I. R. R., in the township of Reading, Hillsdale county, 10 miles southwest of Hillsdale, the county seat. Reading was settled in 1833 and Reagingo located as a village in 1855. It is also claimed to be one of the highest points of land to be found in the lower peninsula of Michigan. Streams here flow across the township, which diverge to the east and west and finally empty their waters into lakes Erie and Michigan. The township is assessed at a valuation of $400,000, has a school debt of $3,000, which is payable in February, 1882. It is well supported by a thrifty agricultural region of country, and is one of the most prominent shipping points on this line of road in the State. The churches are Baptist, Free Will Baptist, Methodist and Presbyterian, and the place has a graded school, Masonic lodge of Masons and Odd Fellows, and a number of manufacturing enterprises. A bi-weekly mail delivery here will turn out 10,000 pairs in 1881. Express, American. Telegraph, Western Union. Stage to Camden, 5 miles south, daily.

SAGINAW.

The oldest city in the Saginaw valley, and the county seat of Saginaw county, was located as a settlement in 1822, but its principal development has taken place since 1845. It now contains a population of about 11,000, and is situated on the west bank of the river bearing the same name, 18 miles above its mouth, and a short distance above East Saginaw, which is on the opposite side, and with which it is connected by 3 substantial bridges spanning the river, the distance from the central part of each place being about 2 miles. It has a frontage on the river of 4 miles, with an average depth of 2 miles, and is divided into six wards, comprising some 110 streets and avenues, many of them remarkably fine thoroughfares, studded with handsome buildings, Washington street, extending from a point opposite East Saginaw, through the whole length of the city, being the most notable.

The city is incorporated, and is generally known as Saginaw City. It is governed by a mayor and board of aldermen, who control the various departments. The water works belong to the city, and are under the management of a board of commissioners. The fire department consists of a chief and 9 men, and the police force of a marshal, deputy marshal, and 4 patrolmen. The city has also a board of health. Six buildings are devoted to public school purposes, the central one containing the grammar and high schools. There are also 2 German Lutheran and 2 other private schools, while religion is well represented by 10 churches of the following denominations: One Catholic, 1 Presbyterian, 2 Methodist, 2 Baptist, 2 Lutheran, 1 Liberal Christian, and 1 Episcopal. A beautiful cemetery is located 3 miles west of the city on the Gratiot State road. Of societies, the city has 4 lodges of Masons, 2 Odd Fellows, 1 Knights of Pythias, 1 Good Templar and 6 other miscellaneous ones, with purposes social or benevolent. There are 2 banks, a number of incorporated companies, and 2 newspapers are published, the *Saginawian* (Democratic), and the *News* (Republican). The principal industrial interests of Saginaw are lumber and salt, with quite a large trade in furnishing supplies to the lumber regions.

It is connected with East Saginaw by street railway, and the following will show its distance from important points: Thirty-six miles north of Owosso, 115 northeast of Grand Rapids, 101 northeast of Jackson, 64 northeast of Lansing, and 100 northwest of Detroit. The F. & P. M. Ry reaches within a short distance of its northern boundary, the Saginaw Div. of the M. C. R. R. traverses the business portion of the city, and the S. V. & S. L. R.

R. extends due west to St. Louis, connecting there with the Chicago, Saginaw & Canada, while the Saginaw Div. of the D. & B. C. R. R. has recently been completed to this point. Besides the above, it has unrivaled facilities for transportation by water; large lake vessels ascend the river here and load at docks in the center of the city. Telegraph, Western Union. Express, American. Mail, daily. Henry J. Northrup, postmaster.

SAINT CLAIR.

For a number of years the judicial seat of the county of St. Clair, is located at the confluence of the Pine with the St. Clair river, 32 miles above Mt. Clemens, 56 northeast of Detroit and 12 south of Port Huron, the present county seat. The first steps toward the location of a settlement here were taken by Thomas Palmer, of Detroit, in 1828, the valuable pine timber in the surrounding country inducing him to locate a saw-mill and lumber camp here, soon after which a village was platted and named Palmer, which was subsequently changed to St. Clair. In 1858 it became incorporated as a city, and, at the present time, it has a population of 2,000. Prominent among the industrial interests of the place are a large woolen mill, foundry and machine shop, planing mill, sash, door and blind factory, stave factory, hub and spoke factory, brick yards, flouring and saw-mills. The extensive tannery of W. D. Sheldon ships annually leather to the value of $60,000. Vessel building is also a feature here. A mineral spring similar to that at Mt. Clemens, but stronger in iron, discharging 80 barrels of water daily, is attracting considerable attention, and the proprietors design the erection of a large hotel and baths during the present year. There are 5 churches, 2 public school buildings costing $10,000, a bank and a newspaper, the *Republican*, originally established in 1834. Included with the various manufactures, grain and hay are largely shipped, of the latter, 2,000 tons were exported in 1880. Farming land in the vicinity ranges in value from $30 to $100 per acre. During close of navigation stages run to Marine City and Port Huron daily; fare 25 and 50 cents respectively. St. Clair is the eastern terminus of the Michigan Midland R. R., which connects by ferry with the C. S. Ry, at Courtwright, on the Canadian side of the river, one mile distant. Telegraph, Western Union and American Union. Express, Canadian. R. H. Jenks, postmaster.

SAINT HELEN.

Was settled in 1872, on St. Helen lake, in the eastern part of Roscommon county. It is a station on the Mackinaw Div. M. C. R. R., has about 400 inhabitants, and is almost exclusively engaged in lumbering. The extensive mills here have recently been purchased by new parties, who are making considerable improvements in the village, 75 dwellings being now in process of erection. It is 25 miles east of Houghton lake, 12 southeast of Roscommon court house, and 67 north of Bay City. A physician and shoemaker would find remunerative openings here. Land $2 to $5 per acre. Telegraph, Western Union. Mail, daily. Henry Stephens jr, postmaster.

SAINT IGNACE.

Sometimes called Point St. Ignace, from its location, is a village now claiming 1,500 inhabitants, in Holmes township, in the extreme southern point of Mackinac county. It is 5½ miles across the straits west from Mackinac, the seat of justice, 55 by stage south of Sault Ste. Marie, 60 north of Petoskey, its nearest present railway approach, and 350 by water from Detroit. The Detroit, Mackinac & Marquette R. R., now being constructed, and which will be completed in the autumn of 1881, will make its eastern terminus here. The village has Catholic and Congregational churches, a good district school, a large hotel and an iron furnace giving employment to 150 men. The place is now growing rapidly, over 250 new building having been erected during 1880. Fish, lumber, beer kegs and pig iron are shipped. Stone is also largely quarried and exported. Stage to Sault de Ste. Marie tri-weekly; fare, $5; to Manistique, 98 miles west, weekly; fare, $10. Telegraph, Western Union. Mail, daily from Mackinaw City, and tri-weekly from from Mackinac Island. Peter W. Hombach, postmaster.

SAINT JAMES.

Manitou county, of which Saint James is the seat of justice, includes the scattering islands near the lower end of lake Michigan. The northern extremity of Beaver island, the largest of the group, is the location of this village, which has about 300 inhabitants, and is the location of a steam saw-mill and some smaller interests. The inhabitants are largely engaged in fishing, and white fish and trout comprise the chief shipments. The place requires a grist mill and a physician. Ship via the Western Transportation Co. The village is sometimes called Beaver Harbor. It is 40 miles west of Mackinac, 30 northwest of Petoskey, the nearest railroad approach, and about 375 by water from Detroit. A light-house and life saving station are located here. Charles R. Wright, postmaster.

ST. JOSEPH.

The village of St. Joseph, situated as it is at the mouth of the beautiful river of the same name, presents a strong claim as one of the most

ATTRACTIVE SUMMER RESORTS

on the east shore of lake Michigan. It stands on a bold promontory, elevated from 80 to 100 feet, having the lake on the northwest side and the St. Joseph on north and east, affording the best harbor on the east side of the lake. The view from the town of the lake, the river and the surrounding country is one of unparalleled beauty, covering many miles in extent, thickly dotted with fruit farms, under a high state of cultivation, and many elegant residences with good roads leading in all directions. The river is navigable for a small class of steamboats for a distance of 50 miles into the interior, that daily ply on its waters during the season of navigation. Daily lines of steamers plying on the lake to and from various cities and towns on both shores. One of the best appointed railroads, the Chicago & Western Michigan, passes through the town, connecting with the Michigan Central R. R., at New Buffalo, 28 miles south, and with three lines of railroad in the northern and eastern portions of the State. By these roads it is 93 miles to Chicago, 87 to Grand Rapids, and 200 to Detroit. A number of extensive manufacturing establishments give employment to several hundred artisans and laborers, and a liberal supply of merchants are engaged in all lines of trade. There are several

FINE AND SPACIOUS HOTELS,

with landlords "who know how to keep a hotel," and to make their guests comfortable and feel at home. Extensive livery stables, all kinds of fruit in their season fresh from the gardens, orchards and vineyards, the waters of the lake and river abounding with all the varieties of fresh water fish. Fishing craft of all kinds, from the steam tug down to the sail-boat, the row-boat, skiff and canoe; abundance of wild game to tempt gentlemen of Nimrod-like propensities; bathing houses on the beach of the lake. In short, all the attractive features that usually induce gentlemen and ladies to seek an agreeable health and summer resort, where they can enjoy the cool breeze from the lake during the heated term.

CHURCHES, SCHOOLS, ETC.

There are seven convenient and elegant churches, representing the Baptist, Catholic, Congregational, Lutheran, Evangelical and Methodist denominations, for the accommodation of those who desire to enjoy preaching on Sunday, the various pulpits of which are supplied with clergymen of marked ability. The village has a national bank, excellent school accommodations, a large and commodious opera house and 2 smaller halls. Three newspapers, the *Lake Shore Daily*, the *Traveler-Herald* (Republican), and *Republican* (Democratic). There are pleasant and beautiful drives in and about the town, a hospitable population, and a well-ordered police force that prevents disorder. The

ASSESSED VALUATION

of property, real and personal, is $600,000, and the school district has a bonded indebtedness of $30,000, the sum of $10,000 has been recently spent in street improvements, and $9,000 has been raised and given for the purpose of locating manufacturing enterprises. The sum of $23,000 has been expended during the past two years by the United States government, a large number of other improvements are in progress, and the place has made greater progress in the past few years than during the previous twenty. St. Joseph was settled in 1831 and incorporated in 1834. It is in St. Joseph township, Berrien Co., 15 miles northwest of Berrien Springs, the county seat. The vicinity being the center of what is known as the "great fruit growing belt" of Michigan, cannot fail to interest visitors, whose tastes lead to horticultural pursuits, as much valuable information can be obtained from the very intelligent gentlemen who make the business of horticulture a specialty. Excellent shipping facilities are afforded both by rail and water. A steamer plies regularly between this point and Chicago (60 miles), making daily trips. The principal shipments are fruits, fruit packages, paper pails and tubs, woolen goods, lumber and fish. Telegraph, Western Union. Express, American. Mail, daily. Leonard J. Merchant, postmaster.

SAINT LOUIS.

The most important town in Gratiot county, is situated on Pine river, at the line of Bethany and Pine River townships, in the northern part of the county. It is the eastern terminus of the Chicago, Saginaw and Canada R. R., now completed to Lake View, 36½ miles west, and which eventually will be extended to Howard City, and perhaps Grand Haven. It is also a station on the S. V. & St. L. R. R., the terminus of which is Alma, 3 miles west. Distance to Saginaw 33 miles, to Ithaca 8 miles, and to Detroit 131 miles. St. Louis was first settled in 1850, platted in 1855 and incorporated as a village in 1869. It now has a population of 2,500, and is the seat of numerous and varied industries, among which are flour, saw and planing mills, stave and heading works, a foundry and machine shop, a salt works and others. There are 5 churches, a new graded school building with 7 teachers, a ladies' library of 600 volumes, 2 banks, 2 weekly newspapers, the *Herald*, established in 1867, and the *Leader*, established 1879, 3 hotels, of which the Commercial takes the lead, a noted mineral spring possessing wonderful curative powers, and fitted up with good accommodations for patients and summer visitors, of whom large numbers are present during the season, a large public hall, water works and a creditable fire department. Land of excellent quality in the neighborhood ranges from $5 per acre for unimproved to $40 for well appointed farms. The principal exports are grain, flour, lumber, brick and staves. Express, American. Telegraph, Western Union. Stage to Ithaca and St. Johns daily. Frank W. Hastings, postmaster.

SALINE.

A prosperous village of 1,100 inhabitants, is situated upon the river from which it takes its name, in Saline township, Washtenaw county, and is an important point on the D., H. & S. W. R. R., 11 miles southwest of Ypsilanti, 41 from Detroit, and 9 south of Ann Arbor. Saline was settled in 1824, and received a village charter in 1864. It is surrounded by a beautiful farming country, well settled and improved, the best lands commanding from $70 to $90 per acre. The village contains Baptist, Methodist, Lutheran and Presbyterian churches, a large Union school building, a foundry, 3 flouring mills, a weekly newspaper, the *Standard*, and several stores, general and exclusive. Grain, wool and general produce are marketed here. Express, American. Telegraph, Western Union. Daily mail. G. B. Mason, postmaster.

SAUGATUCK.

An incorporated village of nearly 900 inhabitants, located on the Kalamazoo river 3 miles above its outlet into lake Michigan. The river here widens into a small lake, forming a fine, commodious harbor, in the improvement of which the general government is expending annually about $5,000. Perhaps no town of its size in the State is so largely engaged in the lake traffic, several tugs, propellers and large vessels being owned here. The village contains Congregational, Dutch Reform and Episcopal churches, has good school facilities, a newspaper, the *Commercial*, a neat Odd Fellows' hall and some manufactories. Peaches, grapes, apples and small fruits are largely grown in the vicinity. A strip of shore about 20 miles long by 2 wide has withstood the extreme cold weather of the past winter, and will have the only peaches in the State this summer. The fruit farms here are uninjured by the cold, and the country will hereafter look to this great fruit region for the bulk of its supplies. Saugatuck is in Saugatuck township, Allegan county, 5 miles west of New Richmond, its station on the C. & W. M. R. R., and 25 miles northwest of Allegan, the county seat. Communication is had by stage twice daily with New Richmond, fare 50 cents, and daily with Hamilton, fare $1, and with Chicago by Capt. R. C. Brittain's daily line of steamers. Express, American. Telegraph, Western Union. George T. Arnold, postmaster.

SAULT DE STE. MARIE.

The county seat of Chippewa county, is situated on St. Mary's river, at the oulet of lake Superior, opposite the famous "Sault" or rapids. It is 170 miles east of Marquette, and 350 above Detroit. Owing to the advantages afforded by the place as a point of settlement, there has been a large increase in population during the past two years, the inhabitants now numbering about 2,500. In contemplating the future prosperity of the town, we would note that there is now in course of construction a railroad from Ottawa, Ont., to the opposite side of St. Mary's river, and when this is completed but a short time will elapse before another line will be constructed, extending from St. Paul to this point, thus giving an almost air line route from the latter city to the seaboard at Portland, Maine, and shortening the distance by several hundred miles.

The surrounding country is being rapidly settled by a thrifty class of farmers, the county also showing a large increase in population. Among the recent improve-

ments in the place is a fine court house, erected at a cost of $24,000, and a Union school building, costing $10,000. It has Catholic, Methodist and Presbyterian churches, Catholic and public schools, several hotels, the Chippewa being the best. A newspaper, the *Chippewa County News*, is published. But little manufacturing is done, a saw-mill, flour mill, machine shop and 3 wagonshops, with some minor ones, completing the list. The exports are chiefly lumber and furs. Fort Brady, an old Government post, is located at the lower end of the town. Six commissioned officers and a force of 70 men are stationed here.

The most prominent object of interest here is the celebrated St. Mary's Falls Ship Canal, a work begun in 1853 and completed in 1855. This canal is somewhat less than a mile in length, is 100 feet wide, with an average depth of 12 feet, and cost in round figures $1,000,000. The main part of the work was cut through solid rock. The increasing traffic through this outlet having largely outgrown its capacity, a much more capacious lift lock is now being constructed by the General Government, to be completed during the present spring (1881). This lock is 515 feet long, 80 feet wide in the chamber, and 60 feet wide at the gates, with a depth of 16 feet. This lock is the largest on this continent, if not in the world, and will cost, when completed, in the neighborhood of $3,000,000. Telegraph, Western Union. Mail, tri-weekly. Myron W. Scranton, postmaster.

It is in Tawas township, on the indentation of Saginaw bay known as Tawas bay, and which is claimed to be the best harbor on lake Huron. A settlement was established here in 1854 as a center for the extensive lumbering operations carried on in the vicinity. It is 38 miles northeast of Standish, 55 by water or 67 via Standish from Bay City, and 165 north of Detroit. It is the northern terminus of the Tawas & Bay County R. R. narrow gauge, which extends from this point 25 miles southwesterly, designed to connect with the M. Div. M. C. R. R., 12 miles distant. During the season of navigation two steamers arrive daily from Alpena, and one from Bay City. Lumber, shingles, long timber, lath, cedar posts, salt and fish form the shipments. The village has a number of large saw-mills, a salt block with a capacity of 200 barrels a day, a good hotel, court house, several business blocks, 2 churches, Congregational and Methodist, a large graded public school, a town library, a weekly newspaper, the *Gazette*, a good hotel and several general and special stores. The county house, or poor farm, is 4 miles from the village and is in a prosperous

TECUMSEH.

One of the oldest and most prosperous towns in southern Michigan, is located on the river Raisin, in a fertile, undulating country, covered with finely improved farms. Grain and fruits of various kinds are extensively cultivated, and blooded horses and cattle of superior grades are raised. The river affords excellent water power, driving 2 flouring mills and a sawmill, besides which there are manufactories of paper, leather, bent wood, chairs, engines, brick, sash and doors, etc. Among the public and social features of the place are 6 churches, Baptist, Methodist, Episcopal, Presbyterian, Friends and Universalist. A fine high-school building and 3 ward schools, employing in the aggregate 12 teachers; a fine opera house, seating 1,000; a live weekly newspaper, the *Herald;* water works and a fire department, with a good steam fire engine.

Sink's Hotel has been refitted and refurnished throughout, at a cost of over $5,000, and is an unusually good house.

Freights, embracing lumber, flour, pork, wheat, apples and general merchandise, aggregating 11,117 tons, were shipped in 1879. The town is clear of debt, and has an assessed valuation, real and personal, of $1,265,325. There are splendid openings for various business ventures here, owing to the rich and thriving country surrounding it, and the fact that a large portion of the products seek a market at this point. Among the enterprises that would prove remunerative are a cheese factory, a pork packing establishment and a fruit dryer and evaporator.

Tecumseh is situated in the township bearing its name, in the northeastern part of Lenawee county. It was first settled in 1823, and received a village charter in 1837, until which time it was the county seat, an honor since held by Adrian. The Jackson Br. of the L. S. & M. S. Ry, with its various connections, affords communication with all parts of the State, the distance to Detroit being 68 miles, to Jackson 33, to Adrian 13, to Toledo 37. Stage to Brooklyn, 20 miles, tri-weekly; fare, $1. Telegraph, Western Union. Express, United States. Edgar A. Tribou, postmaster.

THREE RIVERS.

Deriving its name from its location at the junction of the Portage, Rocky and St. Joseph rivers, is a thriving incorporated village with a population of about 2,500, and the leading town in St. Joseph county. The Air Line Div. M. C. R. R. intersects the Kalamazoo Div. L. S. & M. S. Ry at this point, giving Three Rivers no little importance as a commercial center. It is 5 miles west of Centerville, the county seat, 25 south of Kalamazoo, 12 north of White Pigeon, and 145 west of Detroit. The place contains 6 churches, Presbyterian, Methodist Episcopal, Reform, Protestant Methodist, Episcopalian and Lutheran, and has 3 societies without church accommodations, Baptist, United Brethren and Free Methodist. Several of the churches are very handsome structures. It has a good high school building, 2 ward schools, 2 national banks, 3 hotels, 3 weekly newspapers, the *Herald*, *Reporter* and *Tribune*. The manufactures embrace flour, lumber, peppermint oil, castings, sash, doors, paper and pulp, farm implements and velocipedes. The flouring mill of John Hoffman has recently been remodeled and enlarged, at a cost of about $10,000. The shipments, including manufactures and grain, live stock, etc., amounted in 1879 to 10,000 tons. Three Rivers is free from debt, and has an enrolled valuation of $1,369,450. The mineral springs located here are said to possess wonderful medicinal qualities for curing dyspepsia and rheumatism. Express, American and United States. Telegraph, Western Union. Stage to Howardsville, semi-weekly; fare, 35 cents. John B. Handy, postmaster.

In the northeastern part of Wayne county.

TRAVERSE CITY.

Is situated at the head of the west arm of Grand Traverse bay, at the mouth of the Boardman river, in the northern part of Grand Traverse county, of which it is the seat of justice. It was settled in 1851, became a point on the G. R. & I. R. R. in 1873, and now claims a population of 2,000. The rich alluvial lands of the county are rapidly being taken up by enterprising farmers, and some of the finest grain, vegetables and fruits grown in Michigan are marketed here. The village is reached during the navigable season from points on lake Michigan by daily steamers, and communication is maintained at all seasons, with points not reached by rail, by stage lines. The manufacturing interests of the village and its immediate vicinity include 4 lumber mills, one of which has a capacity of 20,000,000 feet annually, and a large flour mill. Sash and doors, cigar-box lumber, cabinet ware, wooden ware, brooms, woolens, veneers, leather, brick, castings and wagons are also manufactured. It has 5 churches, 3 ward schools, 2 good newspapers, the *Traverse Bay Eagle* and *Grand Traverse Herald*, 3 hotels, a bank and a ladies' library of 600 volumes. Fine brook trout and bass fishing abound, and the vicinity is much patronized as a summer resort. The shipments consist mainly of flour, fruit, lumber, wheat and potatoes. Express, United States. Telegraph, Western Union. Mail, daily. Samuel C. Fuller, postmaster.

UTICA.

The village of Utica, claiming a population of 550, is located on Clinton river, in Shelby township, Macomb county. It was settled as early as 1817 and was years ago connected with Detroit by a line of railway known as the Detroit & Shelby R. R. It is on the old Clinton & Kalamazoo canal, which, though not now in use, affords excellent water power, operating 2 large flour mills and a pulp factory. The D. & B. C. R. R. passes through the village, placing it 24 miles north of Detroit. Mt. Clemens, the county seat, is 9 miles east. Utica contains Catholic, Congregational and Methodist churches, a Union school employing 4 teachers, 2 good hotels, the Exchange and Clinton House, and a live weekly newspaper, the *Utica Sentinel*. Wood pulp, flour and general farm products form the exports. The soil in the vicinity consists of a sandy loam interspersed with clay, wheat and grass being staple crops. The value per acre ranges from $20 to $60, according to improvements. Telegraph, Western Union. Express, American. Mrs. Julia P. Grant, postmaster.

VICKSBURGH.

An incorporated village, with a population of 900, located at the intersection of the C. & G. T. Ry, and the G. R. & I. R. R., in the townships of Schoolcraft and Brady, southern part of Kalamazoo county. It is 13 miles south of Kalamazoo, the judicial seat, 23 southwest of Battle Creek, 62 south of Grand Rapids, and 144 west of Detroit. Its location on the Portage river, which here affords excellent water power, together with its superior railroad facilities, combine to make Vicksburgh an excellent manufacturing center. Its present industries are a flouring mill, saw-mill and planing mill. A large business grows out of its relations with the surrounding country, which consists of prairie lands and oak openings under a high state of cultivation. The shipments, largely of farm products, by the C. & G. T. Ry, alone, in 1879, were 14,874 tons. The place has Methodist Episcopal and Congregational churches, a large Union school house, 2 hotels, 1 recently erected, a neat public hall and weekly newspaper, the *Monitor*. Stage to Athens via Fulton, triweekly; fare, Athens, $1.00; Fulton, 50 cents. Telegraph, Western Union. Express, American and United States. Samuel Hawkins, postmaster.

At the head of White lake, in Whitehall township, Muskegon county, is an incorporated village of about 2,000 population, on the C. & W. M. R. R., 16 miles north of Muskegon and 5 miles inland from lake Michigan. Whitehall has 3 saw-mills and 4 shingle mills, and including those at Montague (which place is just across White river), and other points on the lake, there are, in all, some 9 saw-mills and 6 shingle mills, cutting annually 120,000,000 feet of lumber, 75,000,000 shingles and 20,000,000 lath. The village has also a planing mill, a box factory, a weekly paper, a national bank, a large tannery and 2 hotels, the Cosmopolitan being the recognized headquarters for commercial men. A good graded school is maintained and the churches are 7 in number, viz: Baptist, Congregational, Episcopal, Catholic, Wesleyan and Episcopal Methodist and Lutheran. White lake, which is formed by the widening of White river, is about 5 miles in length and 1 mile wide, the channel being of sufficient depth to float the large lake vessels. In addition to the lumber fleet of sail vessels, Whitehall has, in common with Montague, communication by steamers, about twice a week, with Chicago during the season of navigation. The shipments are lumber, lath, hemlock bark, railroad ties, etc. Express, American. Telegraph, Western Union. Mail, daily. C. C. Thompson, postmaster.

WHITE PIGEON.

An incorporated village of 1,200 inhabitants in the township of White Pigeon, St. Joseph county. It is on White Pigeon creek, a tributary of the St. Joseph river, in an oak opening and prairie country, of which grain, fruit and potatoes are staple products. The market value of farms in the vicinity ranges from $50 to $100 per acre. The main line of the L. S. and M. S. Ry passes through the village, and the Kalamazoo branch of the same road diverges from this point. By these lines it is 37 miles south of Kalamazoo, 95 south of Grand Rapids, 152 from Detroit and 120 from Chicago. Centreville, the county seat, is 12 miles northeast. White Pigeon has a large Union school, a weekly newspaper, the *Journal*, a public library of 500 volumes and 2 lesser ones, a public hall, 6 churches, Baptist, German Reform, Lutheran, Methodist, Presbyterian and Catholic, 3 hotels, a bank, and several well stocked general stores. The assessed valuation of property, real and personal, for 1879, is $348,000. The shipments by rail, chiefly farm products, embracing grain, fruit, potatoes and live stock, in 1879 aggregated 10,884,543 lbs. Telegraph, Western Union. Express, United States. Stage to Mottville, tri-weekly; to Van Buren, Indiana, weekly. Daily mail. Theodore E. Clapp, postmaster

WYANDOTTE.

Lies on the Detroit river, 12 miles below the city of Detroit, in the township of Ecorces, Wayne county. It was platted by the Eureka Iron Company in 1854, who at that time established a blast furnace here. In 1867 it became incorporated as a city, and in 1880 the population numbered 3,700. In addition to the transportation facilities afforded by the river, the town has depots of the C. S. and L. S. & M. S. railways, via which it is 23 miles north of Monroe, 48 north of Toledo, O., and 88 east of Jackson. A number of important manufacturing enterprises are carried on, among which are an extensive silver smelting and refining works, large iron works, a shipyard for the construction of iron vessels, a planing and a flour mill, 2 bending works, 2 sash, door and blind factories, a brewery, a broom factory and a basket manufactory. It also has a savings bank, with a capital of $50,000, a good hotel and 2 weekly newspapers, the *Wayne County Courier* and the *Herald*. The religious and educational advantages are afforded by Methodist, Presbyterian, Episcopal, 2 Lutheran and 2 Catholic churches, 1 large brick Union school building and 2 ward schools. The city possesses the nucleus of a library containing at present 300 volumes. Arrangements are being perfected for the construction of a new city hall, which will be a prominent feature. The shipments comprise flour, farm products, iron, lumber, bent wood, woolen dusters, baskets and a variety of other goods, the products of its several manufactories. One of the attractions of the place is its sulphur springs, which are popular as a resort for invalids and others. The soil in the vicinity consists of a black sandy loam, rich and well adapted to the culture of grain, grass and fruit. It ranges in value from $200 to $300 per acre. Telegraph, Western Union. Express, American and United States. Mail, daily. Wm. H. Denman, postmaster.

YPSILANTI.

This city, with a population according to the last census of 5,000, was chartered as a village in 1832 and as a city in 1858. It is situated in the township of Ypsilanti, on the Huron river, in the eastern part of Washtenaw county. It is a station on the M. C. R. R., at its junction with the D., H. & S. W. R. R., the latter road giving transportation facilities with Hillsdale, Logansport and Indianapolis. Ypsilanti is the seat of the State Normal School. The location was secured in 1849, at a cost of $13,500, and the donation of the grounds. Besides the above, it has good free schools; a new building was erected in 1878, at a cost of about $35,000. Connected with the schools are 2 public libraries containing 3,500 volumes. There is also a ladies' library, with over 1,200 volumes. Of churches it has 8; the most prominent are the Baptist, Lutheran, Catholic, Methodist, Presbyterian and Episcopal. The excellent water power here is utilized by a number of manufactories. Prominent among these are the paper mills, for which special industry this location is unsurpassed. The city also contains a national bank, with a capital of $75,000, 3 newspapers, the *Commercial* (Republican), the *Sentinel* (Democratic), and the *Ypsilan-*

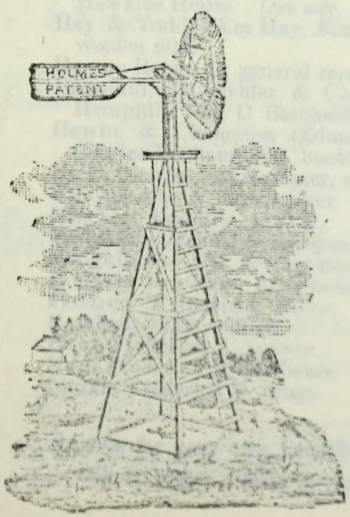
The Latest and Best Sectional-Wheel



WINDMILL MADE.

All objections entirely overcome.

Most Simple, Most Durable, Entirely Self-Regulating. A few Reasons why the STORM KING is superior to all others.

1st—It has NO SLIDING HEAD. 2d—The sails are operated by a rod passing through the shaft, thereby AVOIDING THE FRICTION of a sliding head; no setting by gum or ice. 3d—The device for holding the sails in the wind OPERATES ENTIRELY WITHOUT FRICTION, enabling the mill to run in a light wind, while others are idle. 4th—Its bearings are all fitted long and large, running in Babbitt boxes provided with large oil cups. 5th—The joints most liable to wear are pivoted and adjustable, and can be taken up whenever they become worn. All other joints are provided with a device which holds them secure, and is PROOF AGAINST RATTLING. 6th—The weight of the mill rests on a very small surface, making it very sensitive to turn to the wind.

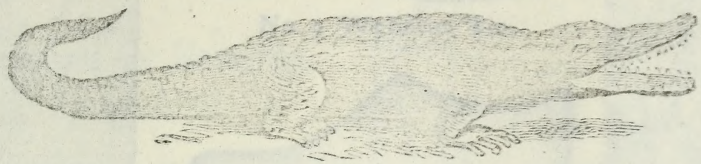
MACKEL'S



ALLIGATOR BOOTS

ALLIGATOR BOOTS and SHOES

I herewith call your special attention to my different styles of Alligator Boots and Shoes, which I have no hesitancy in saying are superior in every manner to the best English Grain Leather for fall or winter wear. This leather is absolutely water-proof, therefore never becomes hard and stiff, making it unpleasant to the wearer.

I next call your attention to the Spiral Spring Spatterdash, for gentlemen's use, an article of undoubted merit, and eminently useful for the coming winter and spring. This is a leather legging, with a spiral spring at both the top and bottom, and, consequently, is self-fitting. It is eminently superior to the old-fashioned legging, as it will conform to any sized calf, be it large or small.

OLD ELASTIC.--I would call the attention of the public to the above specialty. Those having gaiters on hand with the elastic damaged, can have it replaced with new material, at $1.00 a pair, as I have a machine for that purpose.

Parties living at a distance can have their shoes sent by mail, and returned the same way, postage sixteen cents per pound.

Boots or Shoes Made for Individual Feet a Specialty.

Directions for Measuring.

Every Person can take his own measure for Boots and Shoes, and have them made by me in first-class style, with **Perfect Fit Guaranteed,** by following these directions:

Place the foot on a piece of paper and mark all around it, holding the pencil straight up. This will give the exact length and spread of the foot, as shown in cut. (See Fig. 1.) Then measure with a tape line, Ball, Low Instep, High Instep, Heel, Small Ankle, Leg (around the top) and the height of boot or shoe. The places are shown in Fig. 2. On other pages you will see styles and prices. Below find blank for measurement. When you order any particular style, simply give the number, as shown in Catalogue.

If you follow instructions for measurement as given above, and you favor me with your order, I will guarantee you a boot or shoe, stylish, fine and comfortable. In fact a **PERFECT FIT.**

FASHIONABLE! COMFORTABLE! DURABLE!

A combination of these qualities with that of cheapness in the manufacture of my Boots and Shoes are the strongest recommendations that I can bring in asking for a continuance of that patronage which has been so long accorded to me by the Chicago public. As heretofore, I shall continue to furnish Boots and Shoes in the very latest styles and of the very best materials, guaranteeing in all cases A PERFECT FIT. To meet the exigencies of the times, I will make to order in the latest styles, at the following

To those Interested.

I have made the execution of ***First Class Engraving*** the leading characteristic of my establishment, and shall continue so to do. I can with justice guarantee entire satisfaction to my patrons, having been educated at the publishing house of HARPER BROS., New York, in every detail of my business, adding thereto practical proficiency.

I can safely assert, no other engraving establishment in the west can equal the advantages I am enabled to offer, by means of my extensive and special facilities for the execution of all classes of engraving—Mechanical, Scenery, Implements, Colored Work, &c., &c. My assistants are experts in superior engraving. I employ none but eminently qualified and accurate artists, whom I send to any part of the country on application. Prices always reasonable.

Soliciting patronage, sincerely,

A. T. SEARS.

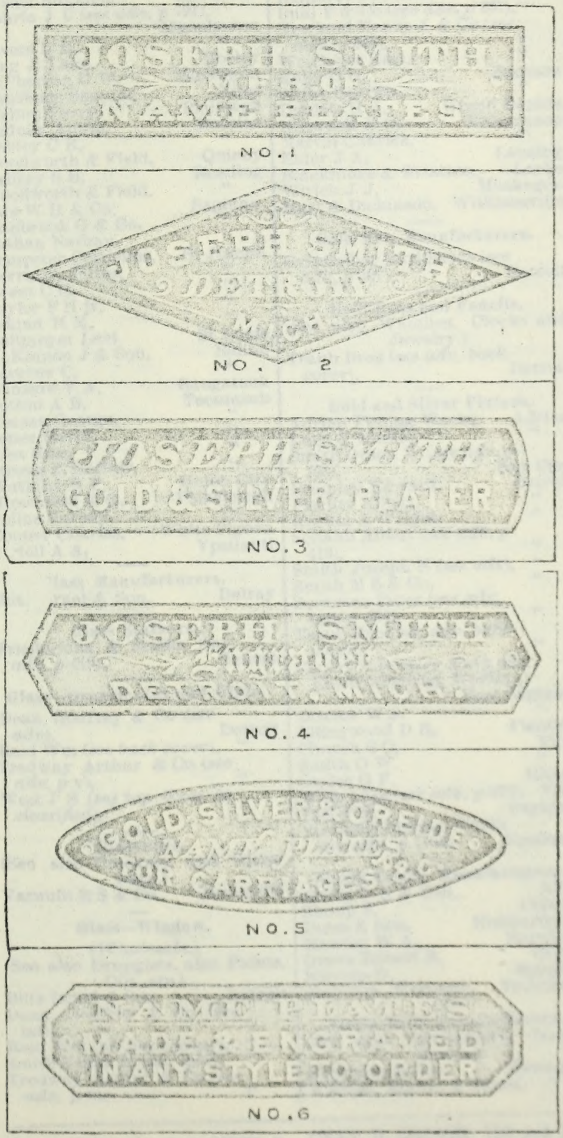
These patterns represent the size and style, showing the thickness and bevel of plates. These plates are handsomely made, heavily plated, and neatly engraved to order. In quality and finish they are superior to many and second to none. Oroide or imitation gold plates, 5 per cent off list; gold-plated plates add $1 per dozen on list. I do not make less than fifteen plates of one style or number. All orders for plates will be made in silver, if not otherwise ordered.



PRICES FOR PLATES

Peck's Reports,	11 30	Ill. 1849–1862,	20 Vol. 150.00
Freeman's Reports,	31 46	Ill. 1863–1868,	16 Vol. 75.00

Volumes 32 to 46, inclusive, are re-reported and annotated, with references to all the analogous cases throughout the entire set, each case being thus accompanied by a brief on the subject matter of the case. This feature, the well known ability of its judiciary and the great diversity of litigation arising in this State, make the Reports of more than average value. The Editorial work has been performed by Hon. J. M. Bailey, Freeport, Hon. Levi North, author of "North's Probate Practice," Prof. V. B. Denslow, of the Union College of Law, Chicago, and Prof. M. D. Ewell, of the Union College of Law, and author of "Ewell on Fixtures," etc.

Lacey's Digest of Railway Decisions. A Digest of all Reported American Cases involving the Law of Railways, and all other cases in which a Railway was a Party. By JOHN F. LACEY, of the Iowa Bar. One Large Imp. 8vo. Volume. 1000 pages. Price, $10.00. 1875.

Michigan Reports. 43 Vols. $189.50.

The New Edition of these Reports, revised and annotated by Hon. T. M. Cooley, Hon. S. T. Douglass, Prof. V. B. Denslow, Prof. M. D. Ewell, E. A. Cooley and others, is now ready. Separate volumes will be sold at $5.00.

McClains Annotated Statutes of the State of Iowa, 1880, being the revision of 1873 as amended by the Session Laws of 1874, 1876, 1878 and 1880, annotated by a digest of ALL decisions construing or affecting the different sections, together with all the organic Laws of the State and Territory, and Tables showing where sections in the Codes of 1851 and 1860 may be found in the Code of 1873 and in this book. By EMLIN MCCLAIN, Esq., of the Des Moines Bar. 2 vols. 8vo. $12.00.

A NEW, FULL AND ACCURATE INDEX, is a feature of this work which is designed to be a complete statement of the Statute Law of Iowa as construed or affected by the decisions of the Supreme Court.

The volumes of reports have been carefully examined one by one to see that no case has been omitted and the cases themselves carefully read. *Digests* and head notes have been ignored, and in short the work is the product of honest and thorough investigation and untiring industry. It will be issued in the confident belief that it is the best work of its character ever published in this country.

Reynolds' Stephen on Evidence. A Digest of the Law of Evidence. By Sir JAMES F. STEPHEN. Re-written, revised and adapted to the existing condition of the Law in the United States. By WILLIAM REYNOLDS, Esq., of the Baltimore Bar. 1 vol. 12mo. Sheep, $2.50; cloth, $2.00. 1879.

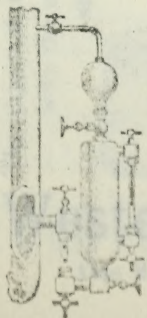
DETROIT LUBRICATOR

MANUFACTURING COMPANY'S

CONTINUOUS FEED LUBRICATOR CUPS.



For Oiling Valves and Cylinders of Steam Engines by the only perfect method, THROUGH THE STEAM PIPE. The oil passes, IN SIGHT, drop by drop, into the column of steam where it vaporizes, thus becoming a STEAM LUBRICANT, oiling perfectly every part reached by the steam. Any CLEAN OIL, black or white, light or heavy, may be used. Saves from 50 to 90 per cent in oil and wear of machinery, thus paying for itself several times a year. A cup will be sent to responsible parties on 30 days' trial if desired. In ordering give diameter of cylinder. Address

Detroit Lubricator Mfg. Co., OFFICE 98 GRISWOLD STREET. **Detroit, Mich.**

FIRST PRIZES AT FAIR AMERICAN INSTITUTE, AND MILLERS' INTERNATIONAL EXPOSITION, CINCINNATI, 1880.

NOTICE.—The first Lubricators ever made showing the oil passing drop by drop through a transparent water chamber, were devised by us, and the same are fully embraced by many Letters Patent owned and controlled by us. Lubricators of every nature embodying the above feature, made by other parties, are encroachments upon our rights, and we will hold purchasers and users, as well as manufacturers, responsible in damages for such violations.

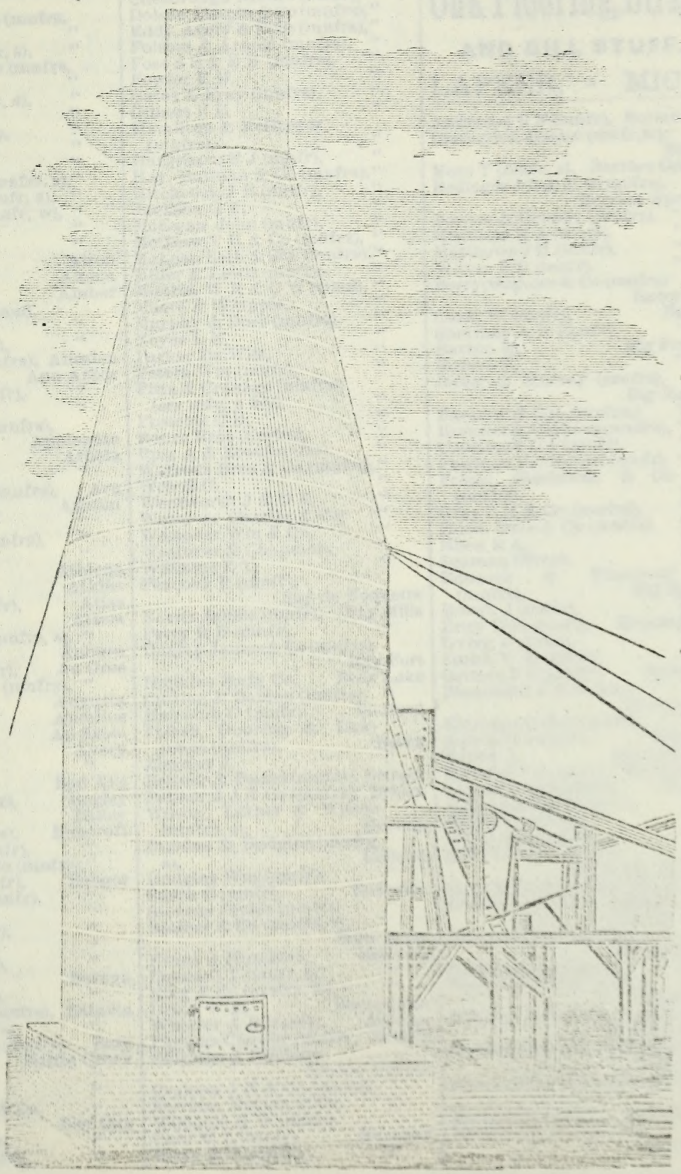
THE

TURNBULL BOILER WORKS CO.

MANUFACTURERS OF

Mill and Marine Boilers, and all Kinds of Heavy Sheet Iron Work.
Repairs promptly attended to.

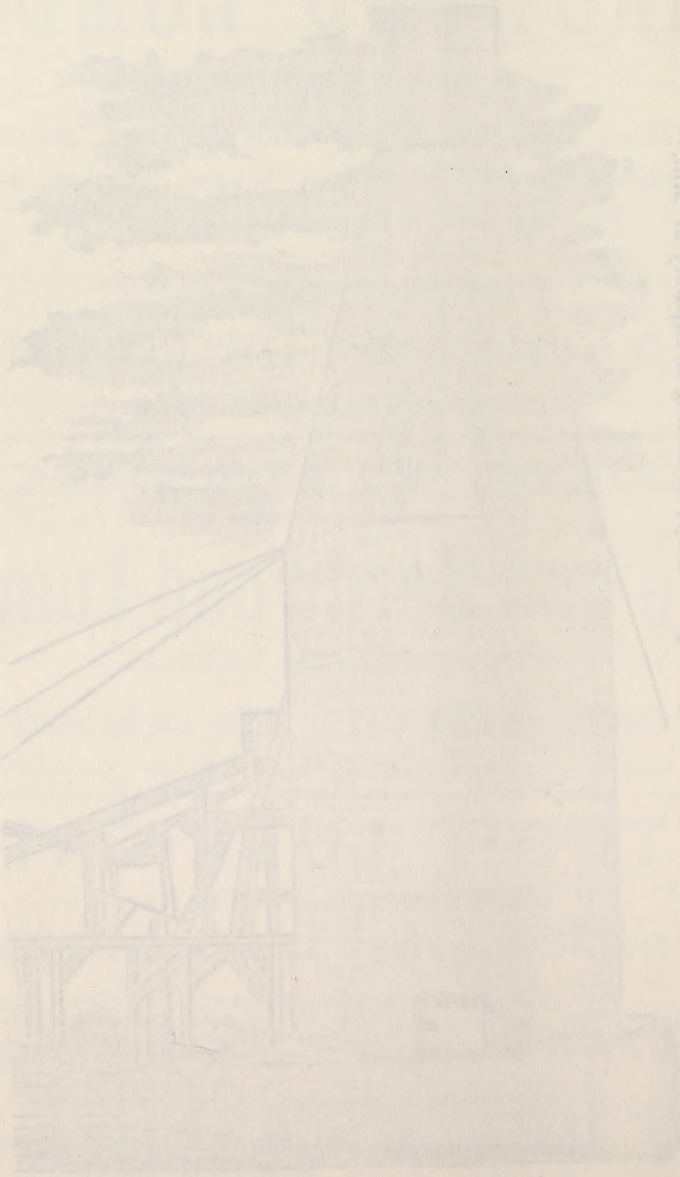


The object of these Burners is to consume the saw dust and refuse at a very small cost as compared with the old method of hauling away with carts. ☞ By using this Burner **you can save from $10 to $20 per day**, according to capacity of Mill.

We have recently purchased from Messrs. Smith & Walker the exclusive right to manufacture and sell their Patent Refuse Burner in Michigan. We can complete Burner within 40 days from receipt of order. In writing for figures please state the following: Capacity of Mill. Have you a Lath Mill? Do you wish to Burn Slabs?

Western Avenue, Muskegon, Mich.

Also Manufacturers of Smith & Walker's Patent Refuse Burner.



Use Porter's Joliet Lager Beer. T. D. STUVER, Sole Agent, Chicago. See Advertisement opposite page 131.

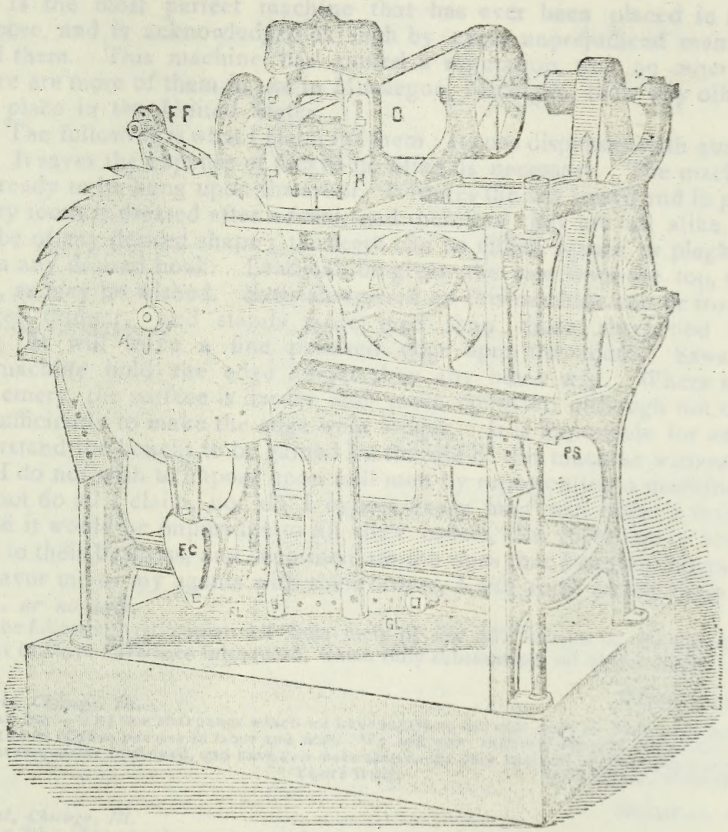
M. COVEL'S

Patent Automatic



SAW SHARPENERS,

289 Randolph Street,

CHICAGO ILLINOIS

M. COVEL'S SAW SHARPENER.

Is the most perfect machine that has ever been placed in a mill for that purpose, and is acknowledged as such by every unprejudiced man that has ever used them. This machine has gained a reputation that no other machine has. There are more of them in use in Muskegon, Michigan, than any other kind in any one place in the United States.

The following is what I claim for them: Its use dispenses with gumming or joining. It saves the expense of files as no filing is necessary. The machine leaves the saw ready to be hung upon the arbor. It leaves the saw round and in perfect balance. Every tooth is dressed after a form, and therefore they are all alike. These forms can be of any desired shape; the teeth can be either square or pleghm, and can be given any desired hook. Lead can be given the saw from the top, the bottom, or both, as may be wished. Saws sharpened on this machine can be from two to three gauges thinner, and stands more feed than those sharpened in any other way. It will leave a fine polished edge upon the tooth. Saws sharpened on this machine hold the edge longer than any other way. Where steel is dressed with emery, the surface is harder and more compact, although not case hardened, but sufficiently to make the edge wear longer. It is impossible for any one to fully understand the benefit to be gained by the use of this machine without trying them.

I do not wish to impose upon mill men by representing a machine to them that will not do all I claim, nor do I expect every man will order a machine; if they should it would be impossible to fill their orders, but there are a few that wish to excel in their business, and such men are the ones that I expect orders from, and all that favor me or my agents with their orders, I will fully satisfy them of all that I claim, *or no sale.*

The following testimonials are from some of the mill owners of Muskegon, where a large number of them have been introduced, which fully substantiate all that I claim.

MUSKEGON, June 29, 1878.

M. Covel, Chicago, Ill.

DEAR SIR:—The saw sharpener which we have in use at our mill does its work well, and we think makes a saving to us of $6.00 per day in labor and files. We are now running thirteen gauge saws in our gang and carry three-quarter inch feed, and have two more saws in the gate than when we began using your machine.

Yours truly, HACKLEY, McGORDEN & CO.

MUSKEGON, April 11, 1878.

M. Covel, Chicago, Ill.

DEAR SIR:—The two sharpeners manufactured by you for us, are the only sharpeners that we have ever found. They more than take the place of files, keeping our saws in perfect condition. We think no mill man would be without them after using them. Respectfully yours, RYERSON, HILLS & CO.

MUSKEGON, July 6, 1878.

M. Covel, Chicago, Ill.

DEAR SIR:—We cut 180,000 feet of lumber per day during the running season, using two circulars and a gang. Have had two of M. Covel's patent saw sharpeners in use nearly a year. Never used a file on our saws and they run better and will last twice as long. We save the time of two men with this saw sharpener, which is the only one we have ever seen. Yours truly, TORRENT & ARMS LUMBER CO.

MUSKEGON, July 5, 1878.

M. Covel, Chicago, Ill.

DEAR SIR:—Our saw sharpeners are doing well. Our saws will last a year longer than if we used files, and we cut 5,000 feet more lumber per day and do the work better. We would not do without the machines in our mill, and think they make a saving to us in saws, labor and files of at least $10 per day. Our average daily cut is 150,000 feet throughout the season. Have two circulars and a gang.

Truly yours, HAMILTON, GERRISH & CO.

M. Covel, Chicago, Ill. MUSKEGON, July 11, 1878.

DEAR SIR:—Your automatic saw sharpener works well and gives good satisfaction. We find a great saving in labor and files. Yours, &c., C. DAVIS & CO.

Covel, Chicago, Ill. MUSKEGON, July 17, 1878.

DEAR SIR:—I have one of your saw sharpeners working on sixteen gauge gang saws with teeth seven-eights of an inch apart, and I think it works splendidly. It has given good satisfaction, keeping teeth even length and gummed, ready for work at all times. I think no mill man would be without one after using it.

(OVER.) Yours respectfully, T. S. FARR, Agent.

The Perfection

REFRIGERATOR

For preserving food, economy in the consumption of ice, perfect circulation of cold air through the provision chambers, the beauty in its architectural design, the thorough work in its construction (*no Staining, Graining or Cheap Veneer Work*) has no equal. The cabinet is made of hardwood, and finished in a style which would make it an ornament to any dining room.

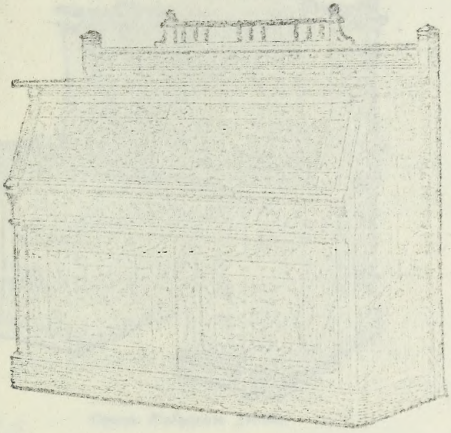
The Burr Patent Parlor Folding Bed!

MANUFACTURED ONLY BY

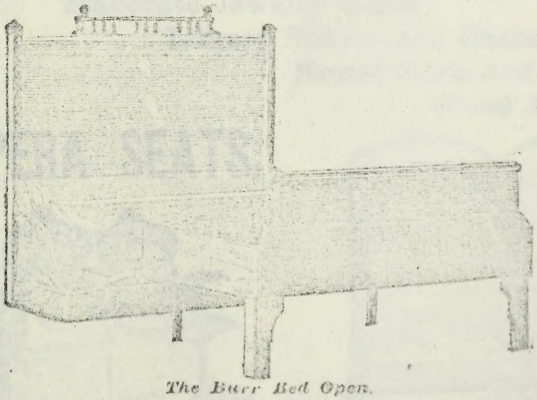
A. H. Andrews & Co.,



The Burr Bed Folded.

A good Folding Bed has long been called for. The BURR BED is the result of many years study and experiment; it received the only Silver Medal ever given in the United States for a Folding Bed.

These Beds fold into Secretaries, Bookcases, Wardrobes, etc., so that no one would suspect they were beds.



The Burr Bed Open.

They save room and rent in many cases, as they can be placed in sitting room or parlor, or can be rolled from one room to another.

They have Steel Spring Mattrass which folds up with all the bedding after bed is made up.

The Bed is perfectly ventilated, and in all respects guaranteed satisfactory.

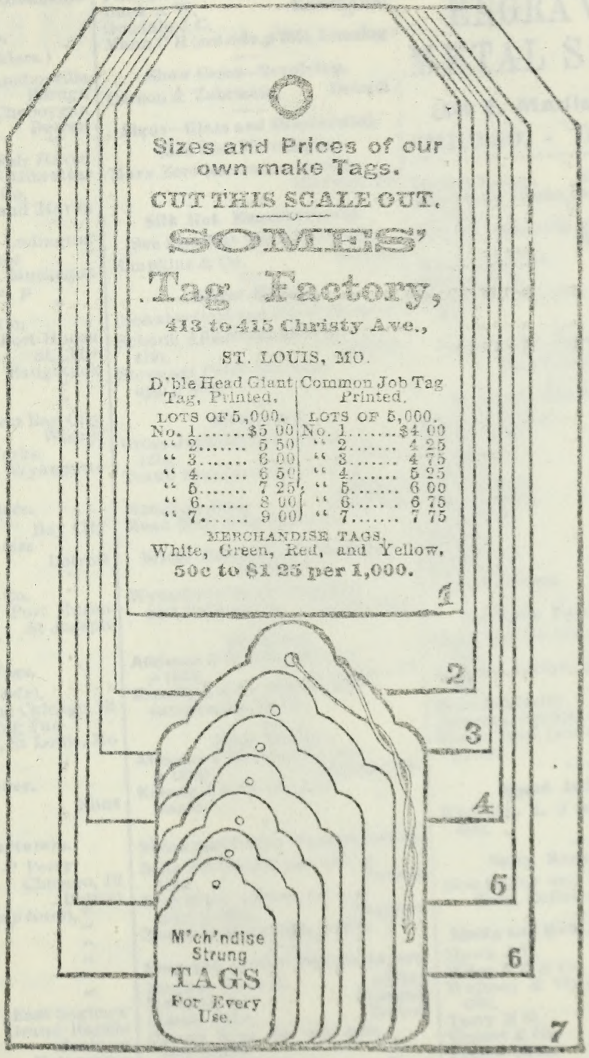
ST. LOUIS TAG AND CARD FACTORY.

THE ONLY FACTORY WEST OF NEW YORK.

We make a specialty of our **GIANT TAG**, consecutively numbered, printed and wired for cotton Presses and Factors, being double in thickness at the head, with an eyelet passing through both folds, holding them firmly, making them the strongest Tag now in use. We would refer you to the Cotton Compress companies of St. Louis and the South, which have used them for the past six years. Have made for one cotton press company **700,000** this year.



Patronize the only Western Tag Factory where such goods are made, and where as large stocks of Tags can be found as there is in any city in this country. Prices as low, quality and work as good. Remember SOMES' ST. LOUIS TAG FACTORY, and send your orders.

5 per cent. discount from above prices on all orders sent through the mail.

Exclusively Sporting Goods of a High Grade.

A. G. SPALDING & BROS.,

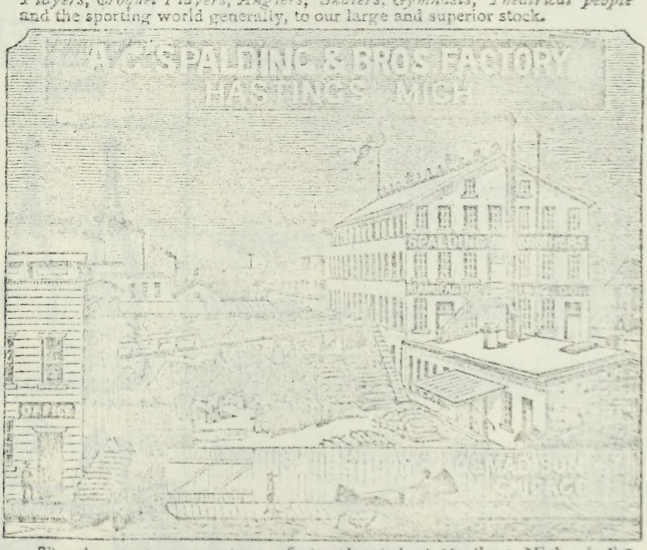
Manufacturers, Importers and Dealers in

BASE BALL SUPPLIES,

Archery, Lawn Tennis, Croquet, Fishing Tackle, Skates, Gymnasium, Theatrical and General

SPORTING GOODS.

With our established connections with the leading manufactories and sporting goods houses of Europe, together with our own increased facilities for manufacturing, we are now prepared to offer the best and most complete line of out-door sporting implements ever shown in this country, and we would respectfully call the attention of *Base Ball Players, Archers, Tennis Players, Croquet Players, Anglers, Skaters, Gymnasts, Theatrical people* and the sporting world generally, to our large and superior stock.



The above cut represents our factory located at Hastings, Mich.,—in the heart of the finest timber land in the West,—where over one hundred workmen are steadily employed, and the most approved modern machinery is used. With these unequaled facilities for manufacturing, and the further fact that we are the *only* sporting goods house in America that manufacture their own goods, we feel that in soliciting orders from individuals and dealers we are in better shape to furnish satisfactory goods, both as to quality and price, than any other house in the U. S. Orders for base ball goods or anything in the sporting goods line intrusted to us will receive prompt and careful attention.

☞ *Special Discounts made to dealers ordering in quantities.*

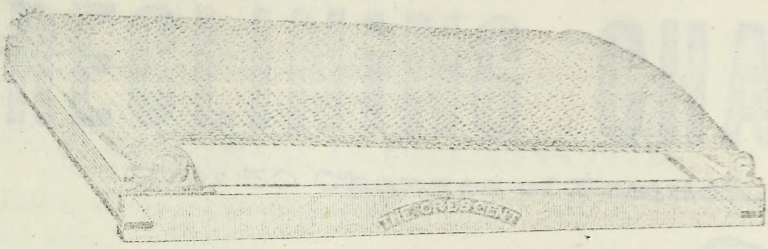
CRESCENT WIRE MATTRESS CO.



S. W. Cor. Canal and 48 and 50 W. Van Buren Sts.

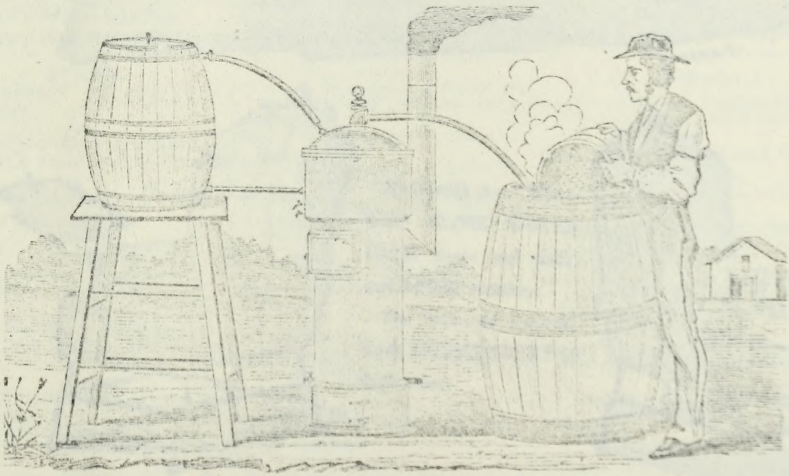
CHICAGO, ILL.

The only wire bed that can easily and practically be stretched when required.

"THE CRESCENT" carries its wire sheet at several inches higher elevation, making it more sightly and allowing a tasty fixing up of the bed.

The Rollers, which rest in pretty malleable castings (the wire fabric being fastened to said rollers), are one inch higher in center, gradually sloping towards the ends on each side, which causes, when turning the same (the rollers) a taking up of over 33 per cent. more in the middle of bed than on the edges, thereby enabling a complete stretching out of any sag or settling in the bed. A Wrought Iron Wrench for such stretching purposes accompanies every bed.

While it is an established fact that all so-called devices and claims for purposes of stretching the woven wire fabric are of no practical use, there can be nothing more natural than to wind the wire fabric around a swelled roller and tighten it as desired. With comparative ease the wrench will force the rachet wheel to turn. Though we do not anticipate the necessity of using the wrench within a number of years, since we work the VERY BEST BED WIRE for our weaves, yet, it is certainly of vital importance to be able to stretch a wire bed, when it needs it. Notwithstanding "THE CRESCENT" being actually worth more than any other mattress, our prices are as low as any first-class woven wire bed in the market.



THE NEW TRIUMPH STEAMER

A simple, safe, durable and economical device for cooking or steaming feed for all kinds of stock; scalding and drying milk cans; heating milk in creameries and cheese factories; rendering tallow and lard; boiling soap; steaming wood for bending; steaming out barrels; leaching bark in tanneries; heating dye vats; putting up and drying fruit; steaming tobacco; heating water for bath tubs, washing clothes, dressing poultry, scalding hogs, dipping sheep, etc.; and generating steam for wheat heaters in water mills.
